The competitor with the lowest number of points after this conversion will be given zero penalties, the other competitors being credited with the number of penalties representing the difference in points between each of them and the leading competitor. If a competitor is eliminated or does not complete his round for any reason, he will be awarded the same number of penalties as that incurred by the competitor who has been the most severely penalised, plus 20 penalties. If the competitor concerned has himself received the highest number of penalties before being eliminated or retiring, 20 penalties will be added to his score. Adding the 20 penalties is done after the time difference has been converted into penalties.

Second Competition: Team Final & Second Individual competition.

(To be run in accordance with FEI Article 326)

Table A - Two full rounds, not against the clock (and without a jump-off – Individuals).

Eligibility - Round 1: Only the competitors and horses, which have taken part in the first competition are eligible for the first round of this competition.

Eligibility - Round 2: The 50 riders (such number to be increased if there is equality for the 50th place) having the best score deriving from the addition of the scores obtained in the First Individual Qualifying Competition and Round 1 of Team Competition (Second Individual Qualification Competition) are allowed to participate in the Third Individual Qualification Competition which is the Round 2 of the Team Competition.

One horse per rider.

Maximum height of obstacles:	1m 60
Maximum width of obstacles:	2m (2m 20 for Triple bar)
Maximum width of water jump:	4m 50 (including take-off element)

Length of course: 500m minimum – 700m maximum

Speed: 375 m.p.m.

Starting Order:

Individuals – Round 1: First to start in Round 1 of the Team competition are all individuals. The starting order of individual riders in Round 1 of the Team competition is according to the reverse order of individual classification in the first competition. In case of equality of penalties for any place competitors retain the same starting place as in the first competition.

Teams – Round 1: Following the first Individual competition, teams are divided into two groups based on the results of the best three competitors in each team. The first group of teams to start in the first round of the Team competition is that with teams placed eleventh and beyond. The group with teams placed first to tenth and those ex-aequo for tenth place start last. Teams in each group start in the reverse order of classification resulting from the first Individual competition. There is a draw to decide the starting order for teams in case of equality of penalties.

CH-EU D&S 2009

Individuals – Round 2: The starting order of the Individuals qualified to compete in Round 2 is set according to the reverse order of the aggregate penalties incurred in the First and the Second Individual Qualifying Competitions. In case of competitors with equality of penalties, the score of the first competition will decide their starting order.

Teams – Round 2: The starting order of the Teams qualified to compete is set according to the reverse order of total penalties of the best three competitors per team incurred in the First Individual Qualifying competition and of the best three competitors per team in the Round 1 of the team competition. Teams with equality of the penalties retain the starting order of Round 1.

Classification - Team Placing

The ten teams and those with equality of penalties for tenth place receive their placing by adding the penalties incurred by the best three competitors in each team in the first competition and the penalties incurred by the three best competitors in each of the two rounds of the second competition. The team, which has obtained the least number of penalties will be placed first and declared Continental Team Champion.

In the event of equality of penalties between teams for first, second and/or third place, there will be a jump-off against the clock in which all team competitors may take part, over six obstacles, which may be increased in height and/or spread at a speed of 375 m per minute. The score in this jump-off is obtained by adding the penalties incurred by the three best competitors in each team, but in the event of further equality of penalties, the times of these three competitors in the jump-off added together will decide the winning team as well as those placed second or third. The score of this jump-off is only to determine the placing of the teams and will not count towards the final scores of the individual competitors.

If two jump-offs are required, the jump-off for the third place shall precede the jump-off for the first and the second place. If after the jump-off there is equality of penalties and time for one of the first three places, the teams concerned will be placed equal. Teams not qualified for the second round of the Team competition receive their placing by adding the penalties incurred by the three best competitors in each team in the first competition and the penalties incurred by the three best competitors in the first round of the team competition.

Starting Order:

For those individuals and members of teams not qualified for the second round of the team competition the starting order will follow the reverse order of penalties incurred in the first competition and the first round of the second competition as well as the round replacing the second round of the team competition. In the event of equality of penalties, the score of the first competition will decide the starting order. The 25th qualifier will, therefore, start as number one.

Round B: The starting order for Round B will follow the reverse order of total penalties incurred in Round A of the Final competition, as well as in the first and second competitions. For those individuals and members of teams not qualified for the second round of the team competition the starting order will follow the reverse order of total penalties incurred in Round A of the Final competition, the first competition and the first round of the second competition, as well as the round replacing the second round of the team competition. In the event of competitors with equality of penalties, the score of the first competition will decide their starting order.

CH-EU D&S 2009

Classification: Individual Placing

The individual placing is determined by adding together for each competitor the penalties incurred in the first competition, as well as the two Rounds of the second competition (disregarding the penalties incurred in the jump-off if there is one) and the two Rounds A and B of the third competition. For those individuals and members of teams not qualified for the second round of the team competition their score in the second round qualifier counts instead of the second round of the team competition.

The competitor with the least penalties will be placed first and declared the Continental Champion.

In the event of equality for one of the first three places after Round B of the third competition, there will be a jump-off against the clock at a speed of 375 m per minute over 8 obstacles from the courses of Rounds A and B. The competitors will be invited to inspect the jump-off course.

If two jump-offs are required, the jump-off for the third place shall precede the jump-off for the first place and the second place.

If after the jump-off there is equality of penalties and time for one of the first three places, competitors concerned will be placed equal.
